Mixte by Mohawk Group

Inspired by old-world Italian stone, Mixte ERT (enhanced resilient tile) offers updated stone visuals with a modern twist. Mixte's two styles include carefully shaded solid colors with a softened, time-worn feel, and a coordinating tile that mixes stripes of the stone visual in its different colors. Used together, the two styles produce an industrial chic version of old-world mixtures of stone. The collection's loose lay construction allows for quick installation and immediate occupancy. The product's 5.0 mm and 20 mil construction is twice as thick as standard LVT and transitions easily with carpet tile. An inherent acoustical inner layer construction eliminates the need for underlayment, which reduces cost and installation time.
