**Variant Form by Mohawk Group**

Variant Form is a new tufted modular carpet tile collection from Mohawk Group that celebrates free expression in the built environment. With today's nomadic lifestyles, people can live, work and play anywhere. The interactions between space, light and activity of people on the move provide the backdrop for exploration of pattern and form. This collection of three styles is a system that allows for personalizing your own path in life and enables spaces to transition from one area to the next with changes in scale and scope.

The graphic patterns of Variant Form were inspired by exposed architectural elements such as trusses, support beams and railings. The forms they create when juxtaposed with walls, ceilings and floors are dynamic and provide a strong visual in a space, especially with the interplay of light and shadow. The palette for Variant Form was influenced by the colors of architecture in the raw: exposed concrete, burnished metals, oxidized steel and distressed wood.

Styles include *Integrate*, a large-scale triangular pattern that has a subtle color shift across the face yarns, and *Reconstruct*, a mid-scale version of the triangular pattern that shatters and breaks into free form. Both are available in 24" x 24" tile format. The third style is *Diffuse*, a 12" x 36" plank with striated linear texture to complement the shifting and varying patterns of *Integrate* and *Reconstruct*. All three styles are made from ColorStrand® solution-dyed nylon for premium performance.
